EXPERIENCE

i5lab

Patos, PB

Backend / Frontend Intern

Jun 2025 – Dez 2025

- Collaborated with backend architecture including routes, models and serializers
- Contributed to backend-aligned feature development within an existing application
- Developed student dashboard interface displaying XP, skills, achievements and pending activities
- Implemented mission submission flow including button and modal interaction
- Followed established design system to maintain visual consistency across the application
- Provided general support for UI and functional improvements across the platform

PROJECTS

FazFast – Service Marketplace Platform

Out 2025 – Present

Fullstack Developer

- Developed service marketplace platform connecting clients and professionals
- Implemented RESTful APIs using Django Rest Framework
- Integrated Next.js frontend with backend for task and service management
- Designed PostgreSQL database schema for service listing and user interactions
- Built responsive user interface for task execution workflows
